### **OUTCOMES**

- BRIDGE designs, realises. experiments and validates a guide to support teachers and educators in the development of CAPACITY **BUILDING** pathway in their relationship. The guidebook responds in a clear and supportive manner to the needs for greater integration and sharing between teachers and educators and for mutual enhancement also in the relationship with learners and families.
- BRIDGE designs, implements, tests and validates a TOOLKIT that educators and teachers carry out IN class and WITH class to develop in learners at risk of school drop-out and in peers the social and emotional skills the necessary counteract phenomena of anxiety about assessment, acts of discrimination towards learners in disadvantaged situations, understanding and cooperation in learning.

#### The target of this project are:

- Teachers in service at the secondary and upper secondary schools
- Learners aged between 12 and 16 years (risk of dropping out)
- School heads

# **Project Brochure**

This Brochure was produced as result of the project "BRIDGE" number 2022-1-IT02-KA220-SCH-000089154 and the European Comission is not responsible of the contents and opinions of authors

### **OBJECTIVES**

BRIDGE aims to introduce a paradigm shift that shifts the focus from the individual at risk of school drop-out to the class group. It aims to support the development of the relational abilities of those who live the classroom on a daily basis and produces as an effect an improvement in the climate, an increase in well-being and mental health which translate into a reduction of the internal causes within the learning environment that contribute to drop-out. The project identifies a twofold specific objective:

- 1.To develop IN and BETWEEN teachers and educators "meaningful relationships and values to achieve meaning and happiness in life and professional enrichment"
- 2.To improve the capacities of learners at risk of dropping out, peers, teachers and educators to "be resilient, manage their emotions and generate positive emotions, develop meaningful relationships with others and create their own emotional support network, pursue their own interests".

BRIDGE is an Erasmus+
Project co-funded by the
European Union, a
Cooperation Partnership in
the field of School Education
(2022-1-IT02-KA220-SCH000089154)
